The best place to start for a great search is the VMCH site . You are likely to find at least a handful of songs on there that are really, really great. The other thing to pay attention to is any recordings from other years which may not have as many people listening to them.. 17. Art of Love Video Songs Hd 1080p Blu Ray 5.02 1,549,912,959 6.26 5,565,842,091 2.65 12,837,058,831 39.06 \$10+ HD Viacom Networks Video Song Database.. The VMCH has a very clean design and has the highest amount of search results you can reach; however, make sure you don't miss a single result and that it is not just a few songs you're interested in searching for because it's just too easy to miss. This can turn a decent collection of videos into a really slow search through songs just because there are so many songs which you can't get anywhere else.
